

## ***The Secrets of the Mojave – Introduction***

*The Secrets of the Mojave – Branton*

*Information received from an Anonymous Source*

*( September, 1995) As most of you know, we have tried to share in our Web Site the best information we can that depicts a transformation to our world and the factors that are leading up to this transformation. Our site is quite heavy with UFO related information as we believe the UFOs and the Extraterrestrials are probably the key catalyst that is preparing our world for contact with alternate realities and dimensions.*

*Since our site has come up we have had numerous correspondences with various people as we have offered our site as a place to share interesting and provocative insights. You will see on our pages that we have references to a few anonymous sources, but this has been with individuals we know who have requested we do this. Well in September of 1995, we received for the first time a truly anonymous source contacting us with new information related to the sharing of UFO and Cover-up materials shared by Branton.*

*You may want to Section to learn more about the group or individual known as Branton. All we can say on the information in this section is that the letter was stamped in Utah with no address. Therefore, in order to put this information into perspective, let me reprint for you below the letter we received.*

*Again, as always, with information coming via the source of Branton, we can not confirm or deny the information, we can only share that we intuitively feel that there is some truth to the information contained within these section of pages and that we must not allow our fear to stop us from learning the truth.*

*It is indeed possible that all of the information shared in this section is complete dis-information, but I believe it is better to know all the scenarios and options connected with the UFO phenomena and sightings and to have some understanding why most Governments in our world absolutely refuse to share any information directly with the public.*

*One can only surmise logically that they have some fear related to this subject and perhaps the source known as Branton is doing them a favor to at least get something out.*

*To the Days Ahead .....  
Letter From Unknown Source  
(September 1995) ENTERPRISES  
c/o J S  
Court*

*Dear Mr. S While browsing through the WWW Page "AREA 51 RESEARCH CENTER" recently (you may want to check it out if you have not already done so), I came across your UFO Theories and Cover-Up page, and noticed some of the early writings from the writer/researcher "Branton" therein. In that I am a personal acquaintance of "Branton", I thought that you might be interested in the NEW files that he has released (enclosed find one disk and a backup). Some of these files you may have already seen, but others I am certain will be new to you.*

*Branton states that he is a "sleeper" agent for the CIA who was (possibly after stumbling on some information that he wasn't supposed to know) electronically induced with an alternative personality which was "programmed" to serve the CIA Black Projects and the Bavarian-Gray collective. In this alternate or "double life" he had access to several underground bases, and has apparently encountered several alien groups as well.*

*When his "conscious" self began to awaken to the facts of this alternate existence (facts that were confirmed by others whom he knew), he began to investigate deeper and to expose the conspiracy against this planet in the best way that he knew how. He is not yet certain whether or not his "alternate self" presently shares his conscious values. I have since learned that a great many people are involved in such "double" lives and have been programmed with alternate nocturnal personalities which "kick in" once they are in the presence of the aliens ... these include contactees who work with human "Federation" personnel, others who work with the "Ashtar" collective, and still others who are being used by the "Gray" Empire in their continued efforts to infiltrate our society.*

*Several of the "Montauk" crowd such as Preston Nichols, Al Bielek and Duncan Cameron also claim that they had been programmed with alternate personalities during their work with the space-time and mind-control projects being carried out at Montauk Point, Long Island in the mid 1980's. Branton himself has a strong feeling that he was also involved with this project in some fashion. In 1985 when the Montauk Project was sabotaged and had ceased for a time, he was 25 years of age.*

*This project is once again in full swing at Montauk, but everything has now been taken underground down into the 8-leveled subterranean facility there, which is being operated jointly by the CIA, the (Nazi) Thule Society, and the alien Grays and is to be a key operational base for the implementation of their "New World Order". This base has some connection with another base under the Archuleta mesa near Dulce, New Mexico where the Grays themselves have their underground headquarters. I hope that you find the enclosed information interesting. Unfortunately, due to my present position, I cannot reveal my own name at this time.*

*I wish you the best of success in your continual search for the TRUTH ...*
